

AGILE WORKFORCE SOLUTIONS

Is hiring a : **FULL STACK & ARCHITECTURE EXPERT**

Why joining us?

DIRECTSKILLS is the best performing SaaS Contingency Management Software

From a Technical Perspective :

At DIRECTKILLS the TECH team is a synergy of multiple skills: developers, technical-functional experts, operations engineers, testers, documentation managers...

Our TECH team is being formed and we are looking for new talent throughout the year. We improve our tool every day thanks to recent technological environments: Node.js, TypeScript, GraphQL, React.

Our CTO Pierre-Antoine, is passionate about algorithms, technology, real mentor and current technical referent of the team. He leads and accompanies our developers in the continuous improvement of the software thanks to his expertise and technicality.

At DIRECTSKILLS we offer the technical and career opportunities to TECH people who wish to evolve without necessarily become managers,

The TECH DIRECTSKILLS team has adapted remote working most of us being even at 100% telework!
*But if you do not like it you have the possibility to come a few days in the week to the office (subject to government restrictions) to exchange and work with our customer / admin / trade teams.

COOPERATION – AMBITION - RESPECT - ENGAGEMENT

Our values have been co-constructed with all employees, they represent our collective and reflect the DIRECTSKILLS of today and tomorrow.

Our team is made up of 40 talents and we aim to double our workforce by 2023. DIRECTSKILLS is made from developers, project managers, support managers, sales representatives, and the back office specialists, all passionate, rigorous and eager to welcome you.

We move in early July 2021 in the heart of the Capital (Opera/St Lazare/Auber districts) in beautiful modern premises and in accordance with our telework policy

(we are FULL remote friendly)

Context and Missions

As part of our ongoing technological migration, under the direct responsibility of the CTO, the full stack and architecture M/F expert's main mission is to realize and evolve the structuring elements of the DIRECTSKILLS platform (set of software layers and frameworks), with a Node.js, TypeScript, GraphQL, React, NoSQL target. It guarantees the coherence of the whole and its proper functioning on a daily basis (security, continuity, performance...). He becomes the technical referent of the company.

Activities

The Expert Full Stack and H/F architecture has the following activities:

- Finalize and evolve our stack.
- Contribute to the evolutions of our continuous integration chain.
- Update and manage the backward compatibility of the various basic software used.
- Participate in code reviews and technical validation of team developments.
- Contribute to the resolution of technical problems.
- Carry out a permanent technological watch.
- Produce technical roadmaps and contribute to the enrichment of the project's technical reference system (architecture, environment, deployments, tools).

Education/ Job Experience/ Salary Package

- Engineering Master Degree (Level A&B).
- A minimum of 7 years of IT experience on various technologies and environments, front, back, infrastructure and network.
- Salary From 80 K€ gross annual.

Required Skillset

We are looking for a profile with a strong IT culture, able to quickly take charge of a new technology and self-training, with however a significant experience in particular on:

- Web development and security
- Node.js;
- TypeScript.

He/she must also be result-oriented, methodical, detail-oriented and particularly rigorous. He/she is finally open and curious about technological and methodological innovations.

Our Assets:

- A great CTO

- A growing company that allows you develop yourself
- Modern coworking premises in Paris, in a lively and dynamic district;
- Up to 100% (full R E M O T E)
- A collaborative and people focused management with a good balance of autonomy and guidance, empowering all employees to organize their daily work and shape the company of today and tomorrow.
- An HR policy focusing on employees' well being and development.
- An open and transparent communication from the management team
- An informal and lean work environment
- A compelling salary package including : fixed salary, bonus, lunch vouchers, healthcare coverage, life insurance, free and seniority vacation days.
- A personalized onboarding and competency improvement plan

And what about you now ?

Computer science is for you a PASSION and not just a skill.

We are looking for competent and ambitious talent willing to express their full potential.

DIRECTSKILLS combines idea sharing and collective intelligence to perform as one team

"Alone we go faster, together we go further"
